

Position: Instrumentation & Controls Technician
Reports to: Manager, Gas Detection
Location: Waterloo, ON
Web Address: www.crwall.com

Company Background:

Our goal is simple, make our customers better.

CR Wall is the preferred supplier of measurement, regulation, operations and safety products for the Canadian gas energy industry. Customers choose CR Wall because of the knowledge, experience and quality products we represent. Our commitment to innovation ensures our customers have the right products and services designed to improve performance, increase safety, minimize training, lower costs, protect the environment and enhance daily operations.

As we experience growth across our regions, CR Wall is seeking an Instrumentation & Controls Technician based out of Waterloo, ON. The successful candidate will be responsible for selling, supporting and servicing gas detection equipment (fixed and portable) components and solutions. Our primary market is gas applications including gas distribution, gas midstream and the industrial market. The successful candidate will display excellent customer service, be highly motivated and have a strong technical competency in all aspects of gas detection.

Qualifications:

- Instrumentation Technology Diploma or equivalent experience. May consider related trade designations with the right combination of experience. (CET, EIT, etc.)
- Minimum of 2-3 years' experience in a technical role. Experience in the natural gas or oil and gas industry is preferred. Experience with gas detection is an asset.
- Excellent communication skills, independent and self-motivated
- Organized, detail-oriented, ability to multi-task
- SAPB1 & CRM experience an asset

Other:

- Position will require 25% travel.
- Our culture requires you to be a team player, problem solver, continuous learner, customer focused and having a positive attitude. Candidates must possess a valid driver's license and good driving record as well as valid passport.
